About the Asia and Oceania Section

Objective

The Objective of the IFLA Asia & Oceania Section is to bring all the library and information professionals from this region under one umbrella to initiate, promote and facilitate the development of library services and the library profession in the region.

Scope

IFLA members (including library institutions, associations or related organisations, and personal affiliates of IFLA) who are based in Asia or Oceania are automatically registered in the Asia-Oceania Section, in addition to other IFLA Sections in which they choose to register. IFLA divides the region into six sub-regions: West Asia, Central Asia, South Asia, South-East Asia, North-East Asia and Oceania.

The Section's professional activities are run by a Regional Standing Committee (known as RSCAO) elected by the members. It cooperates closely with the IFLA Regional Office, with the other two regional Sections of IFLA [Africa, and Latin America & the Caribbean] and with all of IFLA's Sections and Core Activities.
