

## **Country Report Poland**

Annual report to the IFLA CLM committee  
Quebec Canada 2008

### **Introduction**

It was a rather exceptional year. Since the last CLM meeting in Durban Nothing special has happened in the Copyright law in Poland. The Ministry of Culture is undergoing a review of Copyright legislation but so far without revealing details.

### **Lobby activities**

This Spring Polish Librarians Association together with two important stakeholders CC Poland and Fundacja Nowoczesna Polska set up a coalition. Main issues of interest are free access to knowledge and education in the field of copyright.

We are currently working on statement on necessary amendment to the Copyright Act. In September we are going to organize a big conference at the Polish Parliament.

### **Educational activities**

I have given various copyright presentations and wrote some articles on that topic.

Participation to the EBLIDA Copyright meetings.
