LIBRARIES BUILD STRONGER, FAIRER, BETTER COMMUNITIES

HERE’S HOW:

- **Libraries give access to culture and knowledge regardless of wealth**
- **They are key community spaces, and a source of local pride**
- **Libraries provide access to the internet and the skills to use it**
- **They provide learning opportunities to millions of adults**
- **Libraries support other public service goals, from entrepreneurship to health**
- **They respect copyright but need it to work for them**

For families, students, and minorities, there is often no other option. As times have changed, so have libraries.

By supporting libraries, law-makers support communities.
