5. Satellite Meeting in 2018 – Due by October 31, 2017

2018 Satellite meeting proposal is due by October 31st 2017. Officers have met Nguyen Thi Kim Tri, the Director of the Vietnamese-German University Library (Ho Chi Min city, Vietnam). She expressed her interests in hosting the event in Vietnam. Officers will continue to talk with Ms. Nguyen on the topic. As alternative options, Penang (Ertugrul, Candice) and Hong Kong (Clare) were proposed. It is decided that Vietnam would be our first choice and if it fails, we will move to the next options.

During the discussion, the benefits of hosting the event in the same country were mentioned. Visa application and transportation would be much simpler in such a case. It is also discussed the opportunity of hosting the satellite meeting where the ILL is not well known. The satellite meeting can provide a momentum for the local library community to start a resource sharing initiative.

Pentti will provide advices on logistical issues and coordination with the IFLA HQ. And committee will continue to discuss the format of the meeting and topics.

6. IFLA Vouchers issue

Esther Doria and Natasja Cramer joined the meeting and Clare Clare started discussion on the IFLA Vouchers. Natasja has taken over voucher related works at the HQ. She explained that the voucher can be sent out only after the payment was received. Hence there are some delays depending on the financial institutions work.

There is a great demand of electronic voucher but HQ also explained the need of physical vouchers for those who do not have access to online system. Esther made clear that IFLA Vouchers is a service that HQ provides for the members and HQ welcomes new ideas. She also clarified redemption will be issued only to the institutions, not an individual, and HQ still receives the redemption requests for old IFLA vouchers issued by the British Library. HQ still honors them.

The discussion on a new electronic IFLA Voucher scheme continued. A mobile app, and voucher with expiration date were discussed. And it made clear that the new voucher scheme need to be approved by the IFLA Governing Board.

Action Item: a small workgroup will be formed to discuss further the voucher issue. The group will creates the list of requirement of new voucher scheme. After the meeting, Clare has proposed a survey on current voucher scheme and it is agreed that committee will created a questionnaire and release it publically during the ILDS in Paris. At the same time, the message will be sent out through the listserv to get broader responses.

Subject: RE: [DDILSC] Wroclaw Standing committee meetings

Dear Pentti and SC colleagues,
I hope you are doing well and having a good day. Thanks for sending us the meeting times and agenda. I just have a small addition to the agenda. I hope this is okay. I was wondering if the committee would be
willing to set up a small mentorship program (2-3 graduate students LIS programs) for students interested in international interlending and document delivery services. We could even support them to attend our interlending conferences. Just an idea.

Best Wishes,

Joe

Subject: [DDILSC] TR: DDRS Meeting Minutes - Saturday, August 19

Dear all,
As I am not sure this email will be read before your next meeting, I forward it on our list.
I take the opportunity to congratulate Peter and Ertugrul! The section is in good hands!

I just read the minutes and as I would like to promote the CLM survey on LaLIST; the link given in the minutes (http://tinyurl.com/avms-survey) seems to be wrong, please have a look. The date of the survey is 2010.

May I give the Committee one suggestion? Perhaps it would be something interesting to add a Twitter account to our communication channels dedicated to DDRS? Twitter is quite an active network and the professional followers of Facebook and Twitter do not correspond to the same user profiles, while being interested in somewhat similar professional news and events. That could be and additional advantage and could increase our visibility.

I would also like to propose a second suggestion which is the following: As we are in an international Committee, and in an intention to be more active on the media, what about each of us members, each in his/her turn, to send a proposal of a relevant piece of information which could be of interest for the other members and a wider audience? I often face difficulties to find news about DDRS in the other continents and I think it could be very interesting to learn what is being done in libraries, by content leaders/providers, publishers in other countries or to be aware of innovative tools and software, UX approach application, etc. and share this information with the audience interested in DDRS via our different channels. It could be not necessarily something written by the Member sharing the information item, but just a brief note linked to an article the Member finds relevant to share. Our Information Coordinator could moderate this piece of information and then publish it on the electronic media. This could reinforce our different channels’ value and our own visibility.

Besides, I am going to promote ILDS conference on different channels again, and I will register ASAP.

I would like to apologize for not to being able to be part of the conference. Have a great time and it seems there will be a great dinner tomorrow evening!
