2. Introductions and welcome

3. Satellite Meeting 2014 Lyon theme: Libraries, Citizens, Societies: confluence for knowledge. BIS – Bibliotheque Information Suisse – is interested in collaborating with us on a satellite meeting after Lyon in 2014. Dr. Josephine Siegrist, Director of the Pestalozzigesellschaft Library and representing BIS took part in our meeting and told us about their interest in working with us. Every second year BIS arranges a big conference with about 400 delegates for 3-4 days. We can have our satellite meeting before their conference. The last day in Lyon is Friday 22. August. We plan to start our satellite meeting the evening 24 August with a reception, and start a one day satellite meeting 25 August. The meeting will take place in Lugano, which is less than 6 hours by train from Lyon via Milano. BIS will take care of the practical arrangements connected to the location. People can choose to take part in only our conference, only the BIS conference or both of them. Our group will take care of the work connected to the program, getting papers to our program etc. The deadline for satellite meetings in Lyon is the 13 March. Tess asked for some more time, but we will try to make our decision soon. We want IFLA volunteers to help us. We will not earn money on the conference, but we must get receive enough money for simultaneously translators (if this is possible to arrange in Lugano), lunch and transportation during the conference day (if necessary).

Update: BIS cannot hold their meeting in August. Nevertheless, BIS is still willing to work with us on the logistics. Working group of Fred, Ruth, Katrin and Esin need to work with BIS and begin planning for this satellite meeting.

The convention hall in Lugano is not available the last week in August, so another site needs to be found.

Dr. Josephine Siegrist gave us a tour of the Pestalozzigesellschaft Library in Zürich where we had our meeting. This is a private public library established on the 150 birthday of the famous pedagogue and education reformer Johann Heinrich Pestalozzi in 1896. Today this library has branches in 16 different places in Zürich.
We also visited their intercultural library branch of the Pestalozzigesellschaf Library on the 11. of March. We received a warm welcome and enjoy hearing about the multicultural library services they were offering at their branch.
