

Linked Data Technical Sub-Committee (LIDATEC) of the IFLA Committee on Standards (CoS)

Virtual Meeting 2021:1

Date: Wednesday, 27 January 2021
Time: 09:00-10:30 AM EST
Venue: ZOOM

1. Update on where we are with IFLA Namespaces Training

2. Approving minutes

- from Athens 2019 - Haliza - [LIDATEC Meeting 2019-08-27 Minutes REVISED oct 10 2019 jlh.docx - LIDATEC 2017-2020](#)
- from October 2020 - Joseph - [LIDATEC Meeting Notes October 7, 2020 - LIDATEC 2017-2020](#)

3. Any other standards to be added next?

- PressOO - Mélanie was following-up with Diane White from ISBN about this.
- Content from RDA that overlap with ISBD should be added -- Any follow-ups on meetings with ISBD and BCM? Meetings were to take place end of 2020 with RDA. Rehab, Mélanie and Gordon to update us.

4. Promotion

- Create a plain English guide to IFLA Namespaces to help with promotion. Joseph to create a draft. Jon to help with information to be included. This will help promote the new site within IFLA. Could lead to a IFLA promotional spotlight on LIDATEC and the Namespace. To be done by March 2021.

5. What are next steps?

- Has each group reviewed the IFLA Namespace to make sure that the information there matches their original PDF files? There could be variations, so proof reading is needed to ensure things are correct.
- Planning for another meeting around March as a mid-year meeting to review next steps for the webinar to promote the Namespace.

6. Other business:
