AdamNet
The Amsterdam Libraries Network
‘A Capital Contribution for the Capital City’

May 7, 2013
Hans van Velzen
Chairman AdamNet
Director Amsterdam Public Library
Five main features

1. About AdamNet
2. Co-operation
3. What makes AdamNet special
4. Ready for the future
5. Importance for the City of Amsterdam
1. About AdamNet

Network was founded in 1996 and now 30 libraries are participating, for example:

• 2 University Libraries (UBA and UBVU)
• 2 College Libraries (HvA and HH)
• Eye Film Institute
• Atria, Institute of Gender Equality and Woman’s history
• International Institute for Social History (IISG)
1. About AdamNet

More participants of AdamNet

• Royal Institute for the Tropics (KIT)
• Institut Francais / Goethe Institut
• Amsterdam Public Library (OBA)
• Libraries from large museums (Rijks-, Van Gogh-, Stedelijk- and Amsterdam Museum)
• Public libraries from Amstelveen and Almere
1. About AdamNet

Collection

• 7 million books
• 100,000 magazines
• Hundreds of digital databases from all over the world
• Thousands of study places
2. Co-operation

Governance

• All libraries are member of the foundation of AdamNet
• 4 times a year boardmeeting
• 2 times a year member meeting
2. Co-operation

Technique

• All catalogues are admissable by www.adamnet.nl and by the libraries self, first regional libraries network in The Netherlands
• User can search in more catalogues at the same time
• Most of the libraries are intending to use ‘Worldcat’ in the future
• Website: www.adamnet.nl
2. Co-operation

Content

- Adaptation of collections
- Agreements about delivery of magazines
- Sharing of knowledge
- Exchange of employees
2. Co-operation

Administrative

• AdamNet-card for users, to lend where possible (11 libraries) and to use all the collections in-house
• Fee is 40 euro a year
• Shared publicity: leaflet, website, etc.
3. What makes AdamNet special

• Willingness to co-operate and to adapt
• Outstanding collections for the user
• Everything easy accessible in a few square kilometers
• Shared presentation
• AdamNet-card
4. Way to the future

- Digital Libraries Services

- A lot of special databases:
  - of all Dutch newspapers
  - ’Picarta’ / several public databases
  - government information
  - scientific databases
4. Way to the future

- Parts of the collection full text on the internet
- Content curation
- User profiles connected to the collection
- Enriching of information
4. Way to the future

Various new Library buildings:
- Amsterdam Public Library / Almere Public Library
- University Study centre
- Mediatheques of Colleges
- Atria
- Libraries of the Major Museums
5. Importance for the City of Amsterdam

Part of knowledge infrastructure:
• Largest information network of Amsterdam
• Majority of inhabitants is user of one of the AdamNet Institutions:
  - 25% of the inhabitants is user of the Amsterdam Public Library
  - all students are member of University- or College library
  - a lot of inhabitants, students and researchers of all over the world use special collections
5. Importance for the City of Amsterdam

Part of cultural infrastructure:
• A lot of cultural activities are organised by the libraries:
  - lectures of authors
  - special science week
  - special week for promotion of adult- and childrensbooks
5. Importance for the City of Amsterdam

Part of the social infrastructure:
• A lot of families go together to the library and meet each other there
• Thousands of independent working people (zzp-ers) use the library as their office
• A lot of students work together in the library
• Specially the Public Library is very important for the integration of the new population with collections, users and employees of all cultures
5 Importance for the City of Amsterdam

Part of economic infrastructure:
• International companies choose Amsterdam as a hub for their office, for instance Cisco
• Libraries like the OBA are important for development of new parts of the city
• Libraries deliver special services for companies:
  - Public Libraries offer special subscriptions
  - University Libraries work together with companies in special projects
Conclusions

1. AdamNet has an outstanding collection
2. AdamNet has a very good technical infrastructure
3. AdamNet is easy accessible for the user
4. AdamNet is ready for the future
5. AdamNet: “A Capital Contribution for the Capital City”!
