## Classification and Indexing section

### Annual report for 2013

The Standing Committee met twice during the Singapore conference. New officers were elected: Maja Žumer (Chair), Sandy Roe (Secretary), John Hostage (Information Coordinator) and Harriet Aagaard (Newsletter Editor).

Three new working groups were established: WG on demonyms, Form/genre WG and WG on subject access in a changing environment. All three WG have started formulating their terms of reference and planning their work. SC members are active in other working groups: Chris Oliver became chair of the FRBR Review Group and Gordon Dunsire is chair of Namespaces Technical Group.

The SC has prepared and accepted a new action plan for 2013/14 and the December 2013 newsletter was published.

Our section is cooperating with the Cataloguing Section, the Bibliography Section and the UNIMARC Core Activity (UCA) to organise a joint open session in Lyon. The call has been published and submissions are being reviewed by a joint programme committee.

The proceedings from the Section's 2012 satellite meeting, *Beyond Libraries: Subject Metadata in the Digital Environment and Semantic Web*, edited by Maja Žumer, Sandy Roe, and Ed O'Neill, was published in January 2014 as a special issue of *Cataloging & Classification Quarterly* (CCQ).

Maja Žumer (Chair)

Sandy Roe (Secretary)
