

# National Libraries Section

## STRATEGIC PLAN 2009-2011

### Mission

The IFLA National Libraries Section is a focal point for supporting the vital role of national libraries in society as custodians of the nations' intellectual heritage, thus providing organisation, access to and preservation of the national imprint in all media.

The Section aims at providing leadership in the areas of concern to national libraries, always in recognition of the needs and views of every region of the world. The Section's activities and goals underpin IFLA's three pillars, in particular: Society Pillar through its work in the World Summit for the Information Society (WSIS) and its support of national libraries world-wide; the Profession Pillar through its support and cooperation with the IFLA-CDNL Alliance for Digital Strategies (ICADS) and its professional practice and the Member Pillar through its information services (e-list, leaflets and newsletter). In pursuing its goals, the Section will support and promote the President's theme, *Libraries driving access to knowledge*.

A related but independent association is the Conference of Directors of National Libraries (CDNL) which was established to discuss policies and promote understanding and cooperation on matters of common interest to national libraries worldwide.
